

Reports are ready!

We are happy to announce that we published the national reports and the transnational report on our learning platform.

Together with organisations from Germany (BK Consult), Austria (AIS), Greece (Symplexis and GFM), and Poland (PFM), we have researched the digital competence education needs of TCN women. We believe the results of this research will inspire a range of activities and facilitate an understanding of the barriers and needs among the people whose situation we tried to present.

The reports are available on the DIGITS project website under '[Resources](#)'
