Based on the reports prepared by the DIGITS project partners, we developed a curriculum for an educational programme for TCN women wishing to develope their digital skills and two courses.

The first course on the e-learning platform is aimed directly at women with experience of migration.

The second focuses on the skills needed by trainerrs to help them teach effectively.

Both courses are available on the free platform https://moodle.digitsproject.eu/.

The trainer course is in English, the course for TCN women is available in English, Polish, Greek, Ukrainian, German and French.
