

How to support TCN women in developing digital skills?

Join us for a meeting about the challenges and good practices of digital inclusion. It will take place neither online nor even hybrid, but **live** – because nothing is more conducive to fruitful networking than time together, food and shared topics.

We will pay special attention to TCN women, as they are a group particularly vulnerable to digital exclusion and therefore – educational, labour market and economic exclusion. Let's talk about it!

Warsaw, 24 September (Tuesday), 9:40 - 14:00

Registration for the meeting at the [link](#)
